ABMEC Annual Conference 2016

Introduction

With mining industry analysts predicting the bottoming out of the commodity price cycle, the ABMEC Annual Conference looks at the best way forward. With each challenge comes an opportunity. Innovative ways of doing business are being explored and developed, and we are delighted to share this information with you. This one day event will provide information to save you hours of research, and give an insight to valuable business opportunities.

*****PLUS—Half-day Seminar on Friday morning: see footnote or ABMEC website*****

MINING INSIGHT SEMINAR

This half-day seminar on the basics of mining provides a valuable opportunity for your staff to learn (or be reminded of) the difference between resources and reserves, the various mining methods, the source of the industry's finance, where your company fits in the supply chain, and mining's jargon and key phrases. The seminar is run by leading mining-industry analyst Dr Chris Hinde of S&P Global Market Intelligence. He will also draw attention to trends this year in exploration, mine development, metals production and project finance.
